Gentlemen and Mrs. Schmidt:

Attached hereto is a copy of a resolution pertaining to one (1) zoning ordinance amendment acted upon by the City Plan Commission at their regular meeting held November 26, 1973. In addition to the reasons outlined in the resolution, the following are additional remarks pertaining to the ordinance involved:

1. Bill No. Z-73-09-21

a. Intended Use: Machine Shop

b. Plan Commission Recommendation: DO NOT PASS

This ordinance received a DO NOT PASS recommendation for the following reasons:

- (1) When we examine this petition purely from a compatible zoning position, this petition is not compatible.
- (2) There still exists in the immediate area substantial residential development and a change to "M1" would not be compatible with this development.
- (3) This change would establish an irreversible trend in industrial zoning which would be very difficult to stop, and have definite adverse effects on this area.

If there are any questions with regard to this ordinance, please feel free to call on us.

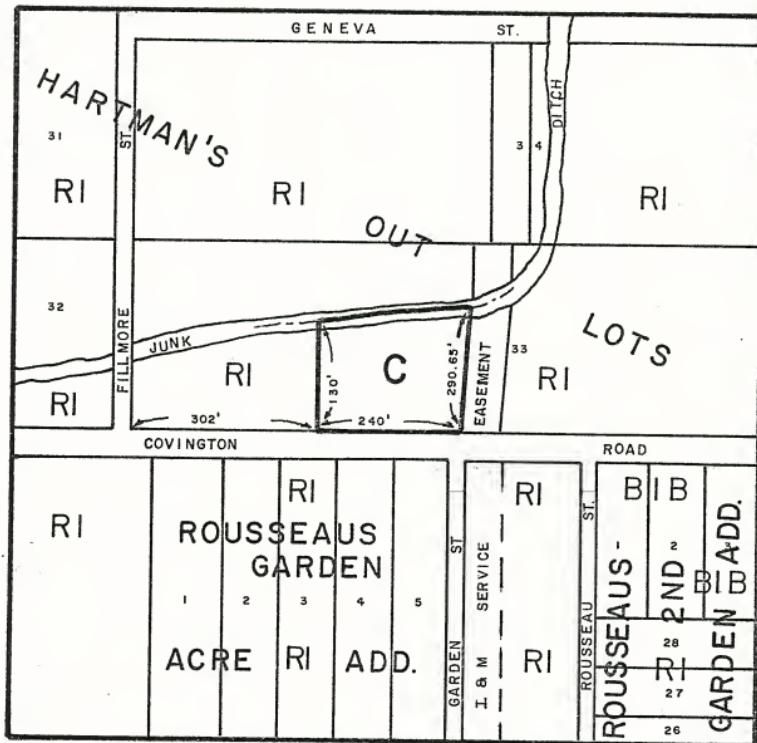

Respectfully submitted,

PLANNING STAFF ANALYSIS  
of  
Bill No. Z-73-09-10  
"B2A" Shopping Center Symbol

Prepared by: *Richard Wanush*

Date: October 24, 1973

Report Number: 12

## PLANNING STAFF ANALYSIS OF BILL NO. Z-73-09-10

## I. Recommendation:

## A. Recommendation: DO PASS

B. Reason: The present zoning of the area to be covered by this symbol is "RA" & "RB". This zoning permits single family homes, other minor uses and multiple family facilities and apartment complexes. In order to utilize this land for multiple family purposes the Commission must review and approve a development plan for the entire tract. The placement of a shopping center symbol in this area in no way interferes with this present zoning. The placement of a symbol does however, give this Commission another alternative for the development of this land over which it can have some control.

As you know, the issue presently before the Commission is the placement of a symbol only. At some future time, a person wishing to use this symbol must present a development plan for the area. The Commission will then have the opportunity to determine if the specifically proposed development is appropriate or not. Specific developments can still be accepted or rejected. The placement of a symbol does not dictate that a shopping center must go there. It only states that the location has certain characteristics that make it a reasonable place to put a shopping center if the requirements of the ordinance and the policies of this Commission can be met.

These locational characteristics were thoroughly discussed at the public hearing and include access to two major thoroughfares and proximity to an expanding and developing area. Increased traffic is certainly a consideration but other uses would have an even more negative impact and the potential volume increase due to this use would be well within the projected 1990 limit.

Before recommending a DO PASS, other possible uses were examined. Single family uses were considered, but were not considered a very likely development for the area. Apartment complexes were also examined and the potential neighborhood impact of traffic generation would be severe. Offices would be the most appropriate use but this would directly compete with a major downtown goal of attracting offices and employment. A hospital was also mentioned. With no attempt to disparage present hospitals, hospitals or similar type public or semi-public uses are not always good neighbors and create traffic problems of their own. While none of these uses should be ruled out, the point is that if a developer wanted to put this land to some of the above uses, this Commission would have to look very closely at the impact that this would have upon the area. A symbol just offers another development alternative.

If the Commission does recommend a DO PASS, there is one condition or statement of policy that the Commission should adopt for the record. Our recommendation is based upon the use of the entire tract between 14 & 24 or at least upon submission of a development plan for the entire area. Piecemeal development of this crucially situated land should not be permitted to occur or the fears of the neighborhood could well be

B. Reason: (Cond't)

realized. An attractive development on the tract that Mr. Bobeck represents will be for nothing if the remainder of the land is uncontrolled. In addition, this Commission should not be put in a position of having to go through these long involved procedures again and again as other land owners decide to develop. The issues will always remain the same ... access, congestion, neighborhood impact, and appropriate use. All of this land is similarly situated and should be developed as a coordinated unit. The Commission should make this clear before approving a DO PASS.

With the above conditions, I recommend that the Commission give this ordinance a DO PASS.
